

So below I have made a list of 5 of the Best Paid Android Apps. Many Android apps have both paid and free versions, the apps I talk about below are worth purchasing for the extra features. There are many more but these are my five favorite. So we will start off with saying that there are over 300,000 apps available in the Android Marketplace; with an estimated 10 billion downloads.

Top 5 Best Paid Android Apps

Kaspersky Mobile Security:

- Kaspersky Mobile Security lets you also backup and restores your phone, provides Antivirus and phone location features using GPS and also can make your phone scream remotely if you think you lost it in your home. You can remotely wipe your phone if lost which is great to keep your information secure.
- The basic features are available through a free version but the paid version protects phone with advanced security and privacy detection. It keeps your web browsing safe and also allows you to find a lost or stolen phone quickly.
- The app is 2.99/month or 29.99/year.

Titanium Backup

- The Titanium Backup will backup and restore all data on your phone, which is critical for today's mobile users.
- Titanium Backup comes in both a free and paid version. The paid version gives you some more options. The Pro version allows Drop box sync, App Freezer and multiple backups.
- The paid version costs \$6.58 with a 5 star user rating.

Camera Zoom FX

- A lot of Android smart phones have weak camera features, with Camera Zoom FX provides you with over 90 different effects.
- Camera Zoom FX Lets you customize your phone buttons to handle different features.
- This app costs \$4.99.

Angry Birds

- Angry Birds is an awesome game. It is available for free with ads and a paid version without ads.
- This game speaks for itself.
- This app costs \$1.99

HD Widgets

- HD Widgets is a universal app made for tablets and phones. It is considered the next generation of widgets, the app was designed with usability in mind, and everything is swipeable.
- It has weather widgets and app widgets that were designed for high definition smart phones on the market today.
- This app costs \$1.99

Thanks for taking the time and looking at my review of the best paid android apps. Hope you found some use full information and it at the same time find an app you need!
